THE COMPANY

Shell Networks, has been in the field of offering turnkey solutions in the network domain of the IT business since June 1997 & is promoted by a group of qualified and experienced professionals from **Information Technology** industry, having a combined business experience of more than 30 man years in offering solutions for various requirements of connectivity of computers, manufacturing & selling Data Com products & have been partnering with companies of international repute.

The company has a firm client base in Central & State Govt. Departments, Public Sector Undertakings, Multinational Companies, Large & Medium Corporate Houses, Software Export Houses, Data Warehousing Centers, Financial Institutions, Banking Companies, Basic Telecom Service Providers, Internet Service Providers, Manufacturing Companies, Defense Establishments, Educational Institutions, Research Centers spread across the country.

Shell Networks has been identified as one of the leading System Integrators and have implemented Networks of different magnitudes and in various geographical locations.

Our scope of operations cover the entire gamut of activities in designing and implementing ***Total IT Infrastructure for the Enterprise FROM CONCEPT TO IMPLEMENTATION.***

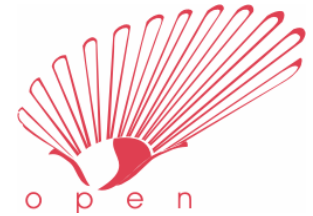

Shell Networks has been striving to provide comprehensive solutions to the clients in the field of **IT** by specializing in Networking and Data Communications. We have strategic tie-ups with companies who are world leaders in their respective product lines and offer world class products and services with a high level of value addition.

The human resource skills of Shell Networks in terms of qualifications, expertise and experience starts with the promoters - all the promoters are qualified and experienced in the core areas of business and are totally involved in the day to day activities of the company.

The highly demanding nature of business in terms of keeping abreast of changing technology trends in this era marked by fast paced technological obsolescence, has propelled the need for constant learning and continuous updating of skills on the Technological developments in the industry to be able to offer state of the art solutions.

In our endeavor to improve our strengths, we have been continuously adding to our technical qualifications and the recent additions has been achieving the "Premier Partner" status with Cisco Systems - The World's leading Networking Company appliances, Authorized Solution Provider for EMC - World's leading Storage (SAN & NAS) solution company.

Shell Networks is Authorised System Integrator for SYSTIMAX Structured cabling Systems, are certified System Integrators for AMP Structured cabling Systems and Are VALUE ADDED Partners to D-Link & have been associated with other companies on a case to case basis

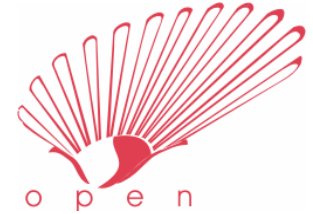

The company takes sufficient care and invests in the training of its employees and our engineers too are constantly trained, certified and exposed to various technology sessions imparted by our principals.

Shell Networks has specialised in PROJECT MANAGEMENT of a Project for creating the IT infrastructure right from the cabling to the Sizingof, the quantities ,specing the active electronic,creation of the intranet & also rendering consultancy on security & remote connectivity & aspects of access to the Internnet

Shell Networks has been providing Human Resource based services in managing the IT infrastructure of the clients. We identify qualified and experienced Manpower required for a given task, train them on the platforms and applications used by the clients and provide 24 x 7 services.

SHELL Networks has a separate division which is an IT Enabled Services company has placed more than 50 specialists at strategic, large & mission critical Network sites as Help Desk Coordinators, Desktop and Server Specialists, Network Engineers, Network Administrators and Database Administrators.

ALLIANCES

Shell Networks has strategic tie-ups with

❖ **CISCO Systems:**

- ❖ Shell Networks is recognised as a focussed partner by Cisco Systems – The World's leading Network Company.- Shell Networks has in house professionals trained & certified by Cisco on Network Design and Implementation of Cisco's suite of Networking Products. Our Engineers have also been trained on advanced Routing & Switching technologies. Shell Networks is a premier partner to CISCO for the foundation technologies and is the emerging technology partner to CISCO for deploying the Digital Media Systems.

- ❖ **Sun Micro Systems** - Servers and storage systems.

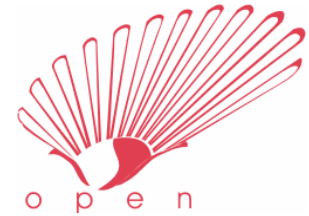

❖ **SYSTIMAX :**

- ❖ Shell Networks is Authorized System Integrator to **SYSTIMAX** - The Former Enterprise Network Group of **LUCENT Technologies** - The World leader in Network cabling components backed by Bell Labs Research. Shell Networks has in house professionals trained and certified by Avaya on **D&E and I&M** of SYSTIMAX Structured Cabling Systems - Fiber Optic & UTP. Shell Networks is now being accorded with the status of a **Prestige Partner**.

- ❖ **TYCO** – Authorised System Integrator for AMP Netconnect series of Network Components.

- ❖ **D-Link** – One of the fastest growing Network Companies having a manufacturing base in India with a wide range of Network products. Shell Networks is Certified Network Integrator.

- ❖ **Airtel** – Leased lines, Internet Bandwidth, MPLS Circuits and allied services.

SKILL SET

Shell Networks specializes in study of clients' requirement in tune with their applications, which includes Systems Study, assessing the required number of users, Identifying Power Users, Sizing of Servers, Configuring Desktops for individual users, analyzing Network Traffic for current and future applications. The Network Design would be based on the system study, which takes care of the present and future requirements. The Design shall be Comprehensive, Modular, and Scaleable besides being Technically Feasible and Economically Viable.

Shell Networks has a team of qualified and experienced manpower like Network Engineers, Hardware Engineers, MCSEs, etc., who can design, install and maintain Systems and Networks. A Marketing team of experienced and skilled specialists headed by senior professionals who are qualified and trained to comprehend the customers' requirements and offer viable solutions.

Servers, Workstations, Desktops and Notebook Computers

Shell Networks is competent in Configuring, Installing and maintaining of IT Infrastructure equipment like Servers, Workstations, Desktops, Notebook Computers, Storage Devices. By virtue of the alliances, certifications and experience, we have the necessary resources to draw the specifications for a given set of applications. Integration of heterogeneous hardware platforms and different operating systems to a single logical operating environment.

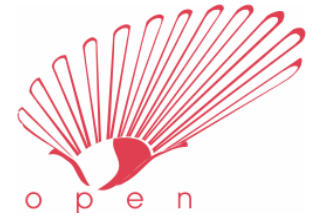

Network Products and Services

The Company is competent in handling the entire gamut of Network Products and Services to offer a comprehensive Network Solution by adding value to the products. Installation & Configuration of WIRED & WIRELESS LANs, Servers with Network Operating Systems, Installation & Configuration of Managed Network Devices like Hubs, Switches, Routers and Remote Access Servers.

Other Network Services offered include Design and Implementation of Network Security Policies, VLANs, Virtual Private Networks, Network Management Station, Remote Configuration and Remote Monitoring of the Network, Audit Network Installations.

Shell Networks has been partnering with the other Infrastructure related companies & have executed various jobs with an accreditation of

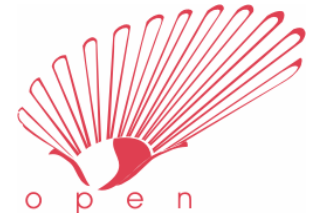

- Least turnaround time
- Excellent Quality
- Professional methods in minimising the project costs
- Top Of Line project management
